Response to Arguments

1. Applicant's arguments with respect to claims 1-41 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claim 1 recites the limitation "said approved spectrum signals" in line 12. There is insufficient antecedent basis for this limitation in the claim. Claim 26 depends on claim 1 therefore claim 26 is rejected for the same reason that claim 1 is rejected.

Allowable Subject Matter

1. Claims 2-25 and 27-41 are allowed over prior.
2. The following is a statement of reasons for the indication of allowable subject matter: After reading Applicants argument and performing an additional search, Examiner agrees that the cited art does not disclose creating a third set of combined codes by multiplying a first set of orthogonal codes with a second set of scrambled codes.

Although the cited prior art, Fukumasa et al, Leem, teach spread spectrum mobile system that allocates codes after code processing which consist of combining codes to produce additional codes, they fail to teach/suggest M (sets of combined

Art Unit: 2667

codes) as being defined as $(INT (N/S)+1)$, where N is the total number of codes used for used by all mobile stations connected with a base station and S is the total number of orthogonal codes, multiple ("k") spread adder units and an adder for adding spread spectrum signals from multiple ("k") adder units, and code allocation is executed when a set of transmission signals from the base station is changed.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
